Dr. Jane Smith

Department of Biology

XYZ University

456 Maple Avenue

City, State, Zip

Dear Dr. Smith,

I am writing to express my interest in the Research Scientist position at XYZ University, as advertised on your website. With a Ph.D. in Molecular Biology from ABC University and over five years of postdoctoral research experience in gene editing technologies, I am excited about the opportunity to contribute to your team.

During my tenure at DEF Institute, I successfully led multiple projects that focused on CRISPR-Cas9 gene editing, resulting in three published papers in renowned journals. My strong experimental design and data analysis skills, coupled with my proficiency in bioinformatics, have equipped me to tackle complex research challenges effectively.

I am particularly drawn to the innovative research being conducted in your lab and am eager to bring my expertise in genomic technologies to advance your current projects. I believe that my collaborative approach and passion for scientific discovery align well with the goals of your team.

Thank you for considering my application. I have attached my resume for your review and would appreciate the opportunity to discuss my qualifications further in an interview.

Sincerely,

John Doe
