Dear [Recipient's Name],

I am excited to present to you my sci-fi series pitch, "Galactic Echoes." This series merges thrilling storytelling with speculative science fiction to explore the consequences of humanity's first contact with an ancient alien civilization.

Logline: When an unexpected signal from deep space reveals the existence of an ancient alien race, a diverse team of scientists must navigate interstellar politics, extraterrestrial diplomacy, and the moral dilemmas of technological advancement to prevent Earth from becoming a pawn in a galactic war.

Concept: "Galactic Echoes" delves into themes of identity, ethical dilemmas, and the challenges of understanding intelligence vastly different from our own. Each episode will feature a blend of character development, suspenseful plot twists, and thought-provoking societal questions.

Target Audience: This series is aimed at a broad audience, especially fans of shows like "The Expanse" and "Black Mirror," appealing to viewers who appreciate both character-driven narratives and speculative concepts.

Episode Structure: The series will consist of [insert number] episodes per season, with each episode running approximately [insert duration] minutes. The first season will build up to a thrilling climax, setting the stage for possible future seasons.

I would love the opportunity to discuss "Galactic Echoes" further and explore how we can bring this vision to life. Thank you for considering this pitch; I look forward to your response.

Sincerely,

[Your Name]
