

# TV Show Pitch: "The Last Horizon"

Dear [Recipient's Name],

I am excited to present my TV show concept titled "The Last Horizon," a gripping drama series that explores the intersection of humanity and technology in a near-future world facing environmental collapse.

**Logline:** In a world where climate change has ravaged the Earth, a diverse group of survivors must navigate the complexities of a new society while confronting the consequences of humanity's past decisions.

**Genre:** Drama, Sci-Fi

**Target Audience:** Adults 18-49, fans of shows like "The Expanse" and "The Handmaid's Tale."

**Key Themes:** Survival, Redemption, Human Connection, and the Ethical Dilemmas of Technology.

The series will follow our protagonist, [Protagonist's Name], a former tech entrepreneur turned reluctant leader, as they grapple with both external threats and internal conflicts within the group. Each episode will delve into the backstories of the ensemble cast, revealing the complex layers of their motivations and struggles.

I believe "The Last Horizon" aligns perfectly with [Platform's Name]'s commitment to innovative storytelling and meaningful content. I would be thrilled to discuss this project further and explore the possibility of bringing it to your esteemed platform.

Thank you for considering "The Last Horizon." I look forward to your feedback.

Sincerely,

[Your Name]
