

Cold Weather Safety Tips

Dear Tenants,

As the cold weather sets in, we want to make sure everyone stays safe and warm. Please take a moment to review the following safety tips:

- Keep your thermostat set to at least 68degF (20degC) to ensure adequate heating.
- Seal any drafts around windows and doors with weather stripping or draft stoppers.
- Open cabinet doors under sinks to allow warm air to circulate around plumbing.
- Let faucets drip during extremely cold weather to prevent pipes from freezing.
- Stay informed about local weather conditions and warnings.
- Have an emergency kit ready that includes blankets, a flashlight, and non-perishable food.
- Please report any heating issues to management immediately for prompt attention.

Thank you for your attention to these important safety tips. Stay warm and safe!

Sincerely,
Your Property Management Team
