

# Winter Readiness Tips for Renters

Dear [Renter's Name],

As winter approaches, it's important to prepare your home to ensure your comfort and safety during the colder months. Here are some essential tips:

## 1. Insulate Your Home

Check for drafts around windows and doors. Use weatherstripping or draft stoppers to keep warmth in.

## 2. Maintain Heating Systems

Ensure that your heating system is in good working order. Schedule a maintenance check if needed.

## 3. Prepare for Snow and Ice

Stock up on ice melt and a snow shovel. Be prepared to clear walkways and driveways to prevent accidents.

## 4. Check Smoke Detectors

Replace batteries in smoke detectors and carbon monoxide detectors to ensure they are functioning properly.

## 5. Protect Your Pipes

To prevent frozen pipes, let faucets drip on extremely cold days and keep cabinet doors open under sinks.

## 6. Create an Emergency Kit

Prepare a kit with essential items like flashlight, batteries, bottled water, and non-perishable food.

If you have any questions or concerns regarding your unit's winter readiness, feel free to reach out.

Stay warm!

Best regards,
