

Winter Preparation Tips for Tenants

Dear Tenants,

As winter approaches, we want to ensure you are prepared for the colder months ahead. Here are some helpful tips to keep your home warm and safe:

1. Insulate Windows and Doors

Check for drafts around windows and doors. Use weatherstripping or draft stoppers to seal any gaps.

2. Maintain Heating Systems

Ensure that your heating system is clean and functioning properly. Consider scheduling a maintenance check if needed.

3. Protect Pipes from Freezing

Keep cupboard doors open under sinks to allow warm air to circulate. Let faucets drip during extreme cold to prevent freezing.

4. Stock Up on Supplies

Have a supply of essentials on hand including blankets, non-perishable food, and medications in case of severe weather.

5. Prepare for Snow Removal

If you have a pathway or driveway, ensure you have shovels and ice melt ready for snow removal.

By following these tips, you can help make your living space more comfortable during the winter months. Stay warm!

Sincerely,
Your Property Management Team
