

Winter Home Care Recommendations for Tenants

Dear [Tenant's Name],

As the winter season approaches, we want to ensure that you and your home are well-prepared for the colder months. Here are some recommendations to help maintain a comfortable and safe environment:

Heating System

- Check your heating system and replace filters if necessary.
- Keep vents and radiators clear of obstructions.

Insulation

- Inspect windows and doors for drafts; use weather stripping to seal any gaps.
- Consider using thermal curtains to keep warmth in.

Pipes

- Let faucets drip during extremely cold weather to prevent pipes from freezing.
- Insulate any exposed pipes in unheated areas.

Safety

- Test smoke and carbon monoxide detectors monthly.
- Keep a fire extinguisher accessible in case of emergencies.

Should you have any questions or require assistance with any of the recommendations, please do not hesitate to contact us.

Warm regards,

[Your Name]
