

Healthcare Consultation Summary

Patient Name: John Doe

Date of Consultation: October 10, 2023

Provider Name: Dr. Jane Smith

Provider Contact: (123) 456-7890

Medication Review

Current Medications:

- Medication 1: Lisinopril - 10 mg daily
- Medication 2: Metformin - 500 mg twice daily
- Medication 3: Atorvastatin - 20 mg daily

Review Findings:

During the consultation, the patient's current medications were reviewed for effectiveness and any potential side effects.

Recommendations:

- Continue Lisinopril as it is effectively managing blood pressure.
- Increase Metformin dosage to 1000 mg twice daily for better glycemic control.
- Monitor cholesterol levels and adjust Atorvastatin if necessary.

Follow-up:

Schedule a follow-up appointment in three months for reevaluation of medication regimen.

Additional Notes:

Patient advised to report any adverse effects or concerns regarding medications immediately.

Thank you for your attention to this matter.
