

Hospital Discharge Summary

Patient Name: John Doe

Patient ID: 123456

Date of Admission: October 1, 2023

Date of Discharge: October 10, 2023

Attending Physician: Dr. Jane Smith

Diagnosis

Chronic obstructive pulmonary disease (COPD)

Summary of Hospital Stay

Patient was admitted for management of acute exacerbation of COPD. Treatment included corticosteroids, bronchodilators, and oxygen therapy. Patient showed significant improvement by discharge.

Medications at Discharge

- Fluticasone/salmeterol 250/50 mcg, 1 inhalation twice daily
- Albuterol 90 mcg, as needed for shortness of breath
- Prednisone 10 mg, to be taken for 7 days

Follow-Up Instructions

Please schedule a follow-up appointment in 2 weeks. Monitor symptoms and contact the healthcare provider if there are any concerns regarding breathing difficulties.

Patient Education

The patient has been educated on the importance of inhaler technique, medication adherence, and smoking cessation resources.
