

Clinical Referral for Reproductive Health Consultation

From: Dr. John Smith
Clinic: Health and Wellness Clinic
Date: October 10, 2023

To: Dr. Jane Doe
Specialty: Reproductive Health Specialist
Clinic: Reproductive Health Center
Address: 123 Health St, Wellness City, State, ZIP

Dear Dr. Doe,

I am writing to refer my patient, Ms. Emily Johnson, a 28-year-old female, for further evaluation and management of her reproductive health concerns. Ms. Johnson has been experiencing irregular menstrual cycles and intermittent pelvic pain over the past six months.

Relevant medical history includes:

- No significant past medical history
- Menarche at age 12
- Regular prior menstrual cycles, until recently

Initial workup conducted in my office included:

- Pelvic examination: Findings are unremarkable
- Transvaginal ultrasound: Pending results
- Lab tests: CBC and hormonal profile ordered

I believe Ms. Johnson would benefit from your expertise in reproductive health, particularly in managing her symptoms and conducting any necessary diagnostic procedures.

Thank you for your attention to this referral. Please feel free to contact me at (555) 123-4567 should you need any further information.

Sincerely,

Dr. John Smith
