Dear [Permit Authority Name],

I am writing to request an environmental permit for the construction and operation of a chemical storage facility located at [insert facility location]. This facility will support our operations by safely storing [list types of chemicals] in compliance with all relevant environmental regulations.

To ensure the protection of the environment, we have conducted a thorough environmental impact assessment and have developed a comprehensive compliance and safety plan. Attached to this letter are the supporting documents, including:

- Environmental Impact Assessment Report
- Facility Design Plans
- Safety and Emergency Response Plan
- Applicable Fees

We believe that our facility will not only comply with all regulatory requirements but also contribute positively to the community by [mention any community benefits, if applicable].

We kindly ask for your assistance and guidance through this permitting process and are open to any further requirements you may have. Thank you for considering our application.

Sincerely,  
[Your Name]
