Address: [Company Address]

Dear [Recipient Name],

I am writing to propose an improvement to our current IT disaster recovery framework. As technology evolves and our organization grows, it is imperative that we continuously enhance our disaster recovery capabilities to mitigate risks and ensure business continuity.

## Current Assessment

Our current framework, while effective, has several areas that require enhancement:

- Limited backup frequency
- Outdated recovery protocols
- Lack of regular testing of disaster recovery plans

## Proposed Improvements

I propose the following enhancements:

- Increase backup frequency to daily intervals.
- Update recovery protocols to align with industry best practices.
- Implement quarterly testing drills to validate the disaster recovery plan.

## Benefits

These improvements will lead to:

- Minimized downtime during incidents.
- Enhanced data integrity and protection.
- A stronger alignment with compliance requirements.

I believe that with the proposed improvements, our organization will be better equipped to handle potential IT disasters and safeguard our operations.

Thank you for considering this proposal. I look forward to your feedback and to discussing this matter further.

Sincerely,

[Your Name]
