Subject: Personal Injury Lawsuit Settlement Suggestion

Dear [Recipient's Name],

I hope this letter finds you well. I am writing to formally propose a settlement regarding my personal injury lawsuit stemming from the incident that occurred on [date of incident]. After thorough consideration and reflection on the circumstances surrounding the case, I believe that a fair settlement can be reached without further litigation.

As you are aware, the injuries I sustained have significantly impacted my daily life, causing both physical pain and emotional distress. My medical expenses have totaled [amount], and I have also incurred additional losses such as [mention any lost wages or other financial impacts]. Considering these factors, I am suggesting a settlement amount of [proposed settlement amount].

I believe this amount fairly represents both the damages I have suffered and the potential risks and costs associated with continuing litigation. I am hopeful that we can resolve this matter amicably and promptly.

I look forward to your feedback on this proposal and am open to discussing it further. Thank you for your attention to this matter.

Sincerely,

[Your Name]
