

Feedback on Local Talent Acquisition Processes

Dear [Recipient's Name],

I hope this message finds you well. I am writing to provide feedback regarding our recent experiences with the local talent acquisition processes.

Firstly, I want to commend the team for their dedication and efforts in sourcing candidates. The use of local job fairs and community outreach has significantly increased our visibility among potential candidates.

However, I believe there are areas for improvement. For instance, the interview scheduling process could benefit from a more streamlined approach to reduce delays and improve candidate experience. Additionally, providing clearer communication about the stages of the hiring process would help set better expectations for all parties involved.

Overall, I appreciate the work being done and look forward to seeing enhancements in our approach. Please feel free to reach out should you wish to discuss this feedback further.

Thank you for your attention to these matters.

Best regards,
