To Whom It May Concern,

I am writing to formally express my concerns regarding the licensing process of healthcare facilities in our area. I have encountered several issues that I believe compromise not only the effectiveness of the process but also the quality of care provided to patients.

Firstly, there have been significant delays in the approval of licenses, which has resulted in prolonged periods during which healthcare facilities cannot operate. This situation ultimately affects patient care and access to necessary medical services.

Secondly, I have observed inconsistencies in the requirements set forth by your office, leading to confusion among facility operators and potential risks to patient safety.

I urge you to reassess the current licensing procedures to ensure they are efficient, transparent, and effectively prioritize patient safety and care quality.

Thank you for considering my complaint. I look forward to your prompt response regarding this critical matter.

Sincerely,

Your Name
