Subject: Consent for Data Sharing in Clinical Trial

Dear Members of the Institutional Review Board,

We are writing to seek your approval for the data sharing practices associated with our clinical trial titled "[Insert Study Title]." Our research aims to [insert brief description of the objectives].

As part of our commitment to transparency and advancing scientific knowledge, we propose to share the de-identified data collected during the study with qualified researchers outside our institution. This sharing will be governed by strict confidentiality agreements and ethical standards to ensure participant anonymity and data security.

We believe that sharing our data will contribute to a broader understanding of [insert relevant topic], facilitate collaboration, and potentially lead to new insights that could benefit future research and community health.

We request your guidance on the best practices for obtaining informed consent from our participants regarding the data sharing aspect of our study. We are committed to adhering to all ethical guidelines and maintaining the integrity of our participants' privacy.

Thank you for considering our request. We are looking forward to your valuable feedback and guidance.

Sincerely,
