Dear [Recipient Name],

Subject: Investigation into Medication Safety Standards

I am writing to formally initiate an investigation regarding the current medication safety standards employed within [specific department or organization]. This inquiry aims to identify any potential risks associated with medication dispensing and administration processes.

Recent observations and reports have raised concerns about adherence to established protocols, which may compromise patient safety. In light of this, I propose a comprehensive review of current practices, staff training, and incident reporting mechanisms.

Please find attached a detailed outline of the proposed investigation plan, including key areas of focus and timelines.

I appreciate your cooperation in this matter and look forward to your prompt response.

Thank you for your attention to this critical issue.

Sincerely,

[Your Name]
