Subject: Endpoint Security Assessment Checklist

## Overview

This checklist is designed to assess the security measures in place for endpoint devices within the organization. Please review and provide feedback.

## **Checklist Items**

- Antivirus/Antimalware Software
  - Is antivirus software installed on all endpoints?
  - Is it updated regularly?
  - Are scans scheduled and monitored?
- Operating System Updates
  - Are all operating systems up to date?
  - Is there a process for applying patches?
- Firewall Settings
  - Is the endpoint firewall enabled?
  - Are configurations reviewed regularly?
- Data Encryption
  - Is sensitive data encrypted on devices?
  - Are encryption protocols up to date?
- User Access Control
  - Are strong, unique passwords enforced?
  - Is two-factor authentication implemented?
- Incident Response Plan
  - Is there an incident response plan in place?
  - Are employees trained on response procedures?

## Conclusion

Please complete the checklist items and return by [insert deadline]. Your feedback is invaluable in ensuring the organization's endpoint security.
