

Integration Details for Integrated Shipping Platform

Dear Technical Team,

We are excited to share the integration details for the new integrated shipping platform. Please find the crucial information outlined below to facilitate a smooth integration process.

1. API Endpoints

- **Authentication:** *POST /api/v1/auth*
- **Get Shipping Rates:** *GET /api/v1/shipping/rates*
- **Create Shipment:** *POST /api/v1/shipments*
- **Track Shipment:** *GET /api/v1/shipments/{id}*

2. Authentication Method

We will be using OAuth 2.0 for authentication. Please ensure that you have the following credentials:

- Client ID: YOUR_CLIENT_ID
- Client Secret: YOUR_CLIENT_SECRET

3. Data Format

All API requests and responses will be in JSON format. Ensure that your application can parse JSON data correctly.

4. Rate Limiting

Please be aware of the rate limits applied to our API:

- Maximum Requests per Minute: **60**
- Maximum Requests per Hour: **1200**

5. Support Contact

If you encounter any issues during the integration process, please reach out to our support team at support@shipintegration.com.

Thank you for your collaboration, and we look forward to a successful integration!

Best Regards,
Integrated Shipping Platform Team
