Subject: Request for Extended Student Loan Deferment

Dear [Lender's Name],

I hope this letter finds you well. I am writing to formally request an extension of my student loan deferment period due to my ongoing caregiving responsibilities. I am currently responsible for providing care to [brief description of the individual you care for, e.g., a family member, elderly parent, child with a disability], which has significantly impacted my ability to maintain full-time employment and make loan payments.

Despite my efforts to balance work and caregiving, the demands of caring for [individual's name or relationship] require considerable time and attention, making it challenging for me to meet my financial obligations. As a result, I am seeking your understanding and support in granting an extended deferment on my student loans.

Enclosed with this letter are supporting documents that provide evidence of my caregiving situation, including [list any relevant documents, e.g., medical records, letters from healthcare providers, etc.]. I kindly ask you to review my situation and consider my request favorably. This extension would alleviate financial stress during this challenging time and allow me to focus on my caregiving responsibilities.

Thank you for considering my request. I appreciate your understanding and support. Please let me know if you require any additional information or documentation.

Sincerely,

[Your Name]
