Subject: Catheter Care Protocol Implementation

Dear Nursing Team,

As part of our ongoing commitment to patient safety and quality care, we are implementing a standardized Catheter Care Protocol effective immediately. This protocol outlines the necessary steps to ensure proper catheter insertion, maintenance, and removal.

Protocol Overview:

1. Conduct a thorough assessment of the patient's need for catheterization.
2. Follow aseptic technique during catheter insertion.
3. Ensure regular monitoring and maintenance of the catheter site.
4. Educate patients on catheter care and hygiene practices.
5. Document all findings and interventions in the patient's medical record.
6. Report any complications or concerns to the healthcare provider immediately.

Training sessions will be held on [insert dates] to review the protocol in detail. Attendance is mandatory for all nursing staff.

Your cooperation and adherence to this protocol are essential for providing the highest standard of care to our patients. Please feel free to reach out if you have any questions or concerns.

Thank you for your attention to this important matter.

Sincerely,

[Your Name]
