

Catheter Management Advice

Date: [Insert Date]

To: [Patient's Name]

From: [Your Name/Title]

Dear [Patient's Name],

Welcome to your catheter management journey. We are here to provide you with the necessary information to help you manage your catheter safely and effectively. Below are some important guidelines:

1. Hygiene Practices

- Always wash your hands thoroughly before and after handling your catheter.
- Keep the catheter and surrounding area clean and dry.

2. Catheter Care

- Check for any signs of infection such as redness, swelling, or discharge.
- Ensure that the catheter is secured properly to avoid pulling and discomfort.

3. Fluid Intake

- Stay hydrated by drinking plenty of fluids unless otherwise advised by your healthcare provider.

4. Monitoring

- Monitor your urine output and report any changes to your healthcare provider.
- Keep a record of catheter changes and any issues that arise.

5. When to Seek Help

- If you experience severe pain, fever, or notice blood in your urine, contact your healthcare provider immediately.

For any questions or concerns, please do not hesitate to contact our office at [Insert Phone Number] or [Insert Email]. We are here to support you.

Sincerely,
