

Genetic Testing Results

Date: [Insert Date]

Patient Name: [Insert Patient Name]

Patient ID: [Insert Patient ID]

Dear [Patient Name],

We are writing to inform you about the results of your recent genetic testing conducted on [Insert Testing Date]. After a thorough analysis, we regret to inform you that the results are inconclusive.

This means that while no specific genetic variant has been identified related to your condition, it does not rule out the possibility of genetic factors contributing to your health. It is important to consider additional factors, including family history and other medical evaluations.

We recommend scheduling a follow-up appointment to discuss these results further, explore potential next steps, and address any questions or concerns you may have.

Thank you for your understanding.

Sincerely,

[Your Name]
