

Genetic Testing Results

Date: [Insert Date]

Patient Name: [Insert Patient Name]

Patient ID: [Insert Patient ID]

Dear [Insert Patient Name],

We are writing to inform you of the results from your recent genetic testing. We want to thank you for your patience as we conducted the necessary analysis.

After careful review, we are pleased to inform you that your genetic test results are negative for any of the variants associated with the conditions tested. This means that there are no identified genetic alterations that would indicate an increased risk for the conditions we evaluated.

It is important to understand that a negative test result does not completely rule out the possibility of developing related conditions in the future, as genetic predisposition can be influenced by various factors, including environmental and lifestyle factors.

We recommend ongoing discussions with your healthcare provider regarding any potential health concerns and appropriate screening measures.

If you have any questions regarding your results or would like to discuss them further, please do not hesitate to contact our office.

Thank you for your trust in us.

Sincerely,

[Your Name]
