Dear Hiring Manager,

I am writing to express my interest in the Marine Science Internship position at the Marine Institute of Excellence as advertised on your website. I am currently a junior majoring in Marine Biology at XYZ University, where I have developed a robust understanding of marine ecosystems and sustainable practices.

During my studies, I have participated in various research projects focused on coral reef restoration and the impacts of climate change on marine species. I am particularly drawn to your institute's commitment to conservation and research, and I believe that my academic background and passion for marine science make me a strong candidate for this opportunity.

I am eager to contribute my skills in data collection and analysis, as well as my enthusiasm for learning more about marine environments on a practical level. I am excited about the possibility of working alongside your team to gain hands-on experience and further my knowledge in this field.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team and learn from your esteemed organization. Please find my resume attached for more details on my academic background and experiences.

Sincerely,  
John Doe
