Hiring Manager

XYZ Aerospace Company

456 Aviation Blvd

Metropolis, State, Zip Code

Dear Hiring Manager,

I am writing to express my interest in the Propulsion Engineering internship position at XYZ Aerospace Company, as advertised on your careers page. I am currently pursuing a Bachelor's degree in Aerospace Engineering at ABC University and have developed a strong foundation in propulsion systems through my coursework and projects.

During my studies, I have gained hands-on experience in fluid dynamics and thermodynamics, which I understand are critical in the field of propulsion. Furthermore, I completed a project where I designed and tested a small rocket engine, which not only honed my technical skills but also instilled in me the importance of precision and innovation in engineering.

I am particularly drawn to XYZ Aerospace Company's commitment to pioneering advancements in propulsion technology. I am eager to bring my background in engineering and passion for aerospace to your team, contributing to projects that push the boundaries of current technological capabilities.

Thank you for considering my application. I am looking forward to the opportunity to discuss how my skills and interests align with the goals of XYZ Aerospace Company. I am available for an interview at your earliest convenience and can be reached at (123) 456-7890 or johndoe@email.com.

Sincerely,

John Doe
