Hiring Manager

XYZ Insurance Company

5678 Oak Road

Springfield, IL 12345

Dear Hiring Manager,

I am writing to express my interest in the actuarial science internship position at XYZ Insurance Company, as advertised on your careers page. With a strong academic background in mathematics and statistics, I am eager to contribute my skills and enthusiasm to your team.

I am currently pursuing a Bachelor of Science in Mathematics at Springfield University, where I have consistently excelled in courses such as Calculus, Linear Algebra, and Probability Theory. I have maintained a GPA of 3.8 and have been recognized on the Dean's List for the past three semesters. My academic achievements reflect not only my dedication to the field but also my ability to apply complex mathematical concepts in practical situations.

In addition to my coursework, I have completed a research project focused on statistical modeling, which sharpened my analytical skills and deepened my understanding of data interpretation. I believe that my background in mathematics, combined with my proactive approach to problem-solving, will allow me to make a meaningful contribution to your actuarial team.

I am particularly drawn to XYZ Insurance Company because of its commitment to innovation in risk management and its renowned training programs for interns. I am excited about the opportunity to learn from industry experts and to apply my knowledge in a real-world setting.

Thank you for considering my application. I look forward to the possibility of discussing how my academic achievements and passion for actuarial science align with the goals of XYZ Insurance Company.

Sincerely,

John Doe
