Hiring Manager

Oceanic Engineering Solutions

456 Ocean Avenue,

Maritime Town, MT 67890

Dear Hiring Manager,

I am writing to express my interest in the Marine Engineering Internship position at Oceanic Engineering Solutions as advertised on your website. My passion for marine engineering, coupled with my proactive approach to learning, has equipped me with a unique skill set that I believe would be advantageous to your team.

Throughout my academic career at Seaside University, I have taken the initiative to engage in additional projects and online courses focused on marine systems and environmental engineering. This self-directed learning has allowed me to not only grasp theoretical concepts but also apply them practically through hands-on projects, such as designing a scale model of a renewable energy-powered vessel.

I am particularly drawn to Oceanic Engineering Solutions due to your commitment to sustainable practices in marine engineering. I am eager to contribute my knowledge, collaborate with your team, and absorb invaluable experience during my internship with you.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your organization and further develop my skills in marine engineering.

Sincerely,

John Doe
