

Dear Tenants,

We hope this letter finds you well. In our continuous efforts to promote energy efficiency and sustainability within our community, we have compiled a list of practical energy-saving tips that you can implement in your homes.

Energy Efficiency Tips:

- **Unplug Devices:** Remember to unplug chargers and electronics when not in use to prevent phantom energy loss.
- **Use LED Bulbs:** Switch to energy-efficient LED bulbs that consume less energy and last longer.
- **Adjust Thermostat:** Set your thermostat a few degrees lower in winter and higher in summer to save on heating and cooling costs.
- **Seal Drafts:** Check for drafts around windows and doors; use weather stripping or caulk to seal them and improve insulation.
- **Optimize Appliance Use:** Run dishwashers and laundry machines with full loads, and consider using cold water settings when possible.
