

Frequently Asked Questions about Tenant Composting Service

1. What is the tenant composting service?

The tenant composting service allows residents to recycle organic waste and turn it into nutrient-rich compost.

2. How do I sign up for the composting service?

To sign up, please visit our website or contact the property manager for registration forms.

3. What materials can be composted?

You can compost fruit and vegetable scraps, coffee grounds, eggshells, and yard waste. Please avoid meat, dairy, and oily foods.

4. How should I collect my compostable materials?

We recommend using a small container with a lid to collect your compostable materials in your kitchen.

5. What happens to the compost after collection?

Collected compost is taken to a local processing facility where it is turned into usable compost for gardens and landscaping.

6. Is there a cost associated with this service?

The composting service is free for all tenants.

7. Who can I contact for more information?

For more information, please reach out to the property management office or email us at compostservice@example.com.
