

Dear [Tenant's Name],

We are excited to introduce our new composting service aimed at promoting sustainable waste management in our community. This initiative is designed to encourage all tenants to participate in composting and share resources effectively.

How It Works:

1. Each tenant will receive a compost bin for kitchen scraps.
2. Designated areas for composting will be marked within the property.
3. We will hold monthly workshops to educate everyone on composting practices and benefits.

Resource Sharing:

We invite you to share your composting resources, tips, and experiences with your neighbors. This could include:

- Recipe ideas for compost-friendly meals
- Composting tools that you find useful
- Gardening tips utilizing compost

Your participation will help create a healthier environment and a stronger community. If you have any questions or suggestions, please feel free to reach out.

Best Regards,
