Subject: Product Testing Protocol for Durability Evaluation

Dear [Vendor Contact Name],

We are writing to outline the testing protocol for the evaluation of the durability of your product, [Product Name]. This protocol aims to ensure that the product meets our quality standards and requirements.

Testing Objectives

- Assess the durability under normal usage conditions.
- Evaluate the performance after exposure to various environmental factors.

Testing Procedure

1. **Sample Selection:** Select [number] samples of the product.
2. **Initial Inspection:** Conduct a visual inspection for any defects.
3. **Test Conditions:** Define the conditions such as temperature, humidity, and load.
4. **Testing Methods:** Specify the methods to be used (e.g., drop test, abrasion test).
5. **Data Collection:** Record all observations and measurements during testing.

Evaluation Criteria

The product will be evaluated based on:

- Physical integrity post-testing.
- Functional performance compared to initial specifications.

Reporting

A detailed report of the findings will be provided within [time frame] after the completion of testing.

Thank you for your cooperation. Please confirm your acceptance of this protocol or provide any feedback by [response date].

Best regards,

[Your Name]
