Date: October 1, 2023

Dear Dr. Johnson,

I am writing to refer my patient, **Mr. Robert Brown**, a 72-year-old male, who has been experiencing persistent knee pain and reduced mobility for the past several months.

Mr. Brown has a history of arthritis and has undergone physical therapy without significant improvement. Upon examination, there is notable swelling and tenderness in the right knee. Based on these factors, I believe he would benefit from an orthopedic evaluation and potential intervention.

Please find attached his medical records and imaging results for your review.

Thank you for your attention to this referral. If you have any questions or need further information, please do not hesitate to contact me.

Sincerely,

Dr. John Smith
