**Reproductive Specialist**  
**Clinic:** Reproductive Health Center

Dear Dr. Doe,

I am writing to refer my patient, Ms. Emily Johnson, a 30-year-old woman with a history of irregular menstrual cycles and recent difficulties conceiving. After thorough evaluation and considering her medical history, I believe it is in her best interest to consult with you for further assessment and management of her reproductive health.

Ms. Johnson's pertinent medical history includes:

- Irregular menstrual cycles for the past two years
- Previous pelvic surgery in 2019
- No significant past medical history

She has expressed concerns about her fertility and is eager to explore her options. I believe your expertise in reproductive health will be valuable in providing her with the care she needs.

Please feel free to contact me if you require any additional information regarding Ms. Johnson's medical history or if there are specific tests you would like me to conduct prior to her appointment.

Thank you for your attention to this referral. I look forward to your insights on her case.

Sincerely,  
Dr. Jane Smith
