Dear [Doctor's Name],

I am writing to express my concerns regarding my recent visit to your office on [insert date of visit]. I had high expectations based on your reputation, but unfortunately, my experience did not meet those expectations.

During my visit, I felt rushed and that my concerns were not adequately addressed. [Include specific details about the visit, e.g., long wait times, lack of communication, or perceived dismissiveness.] This experience has left me feeling unsettled about the care provided.

I believe it is crucial for patients to feel heard and valued during their appointments. I hope you take this feedback into consideration for the benefit of future patients.

Thank you for your attention to this matter.

Sincerely,
