Science Fair Judging Criteria

Dear [Participant's Name],

Thank you for participating in our annual Science Fair. As a judge, it is important to evaluate each project based on the following criteria:

Judging Criteria:

1. **Scientific Thought (30 points)**

   The project demonstrates a clear understanding of the scientific method, including hypothesis formulation, experimentation, and conclusion.

2. **Creativity (25 points)**

   The project exhibits originality and innovative approaches to the scientific problem being addressed.

3. **Presentation (20 points)**

   The clarity and organization of the display, including charts, graphs, and visual aids.

4. **Technical Skills (15 points)**

   The execution of the project and the use of appropriate tools and techniques in experimentation.

5. **Overall Impact (10 points)**

   The overall impression the project leaves on the judges, including enthusiasm and engagement during the presentation.

Each project will be scored out of a total of 100 points. We look forward to seeing your innovative projects and wish you all the best!

Sincerely,
[Judge's Name]
[Science Fair Organizing Committee]
