Dear [Client's Name],

I hope this message finds you well. As we discussed in our previous meetings, I have drafted a comprehensive investment portfolio allocation strategy tailored to your financial goals and risk tolerance.

Investment Objectives

Your primary investment objectives are as follows:

- Capital Growth
- Income Generation
- Diversification

Portfolio Allocation

Based on our analysis, I recommend the following allocation for your investment portfolio:

- **Equities:** 60% (including domestic and international stocks)
- **Bonds:** 30% (mix of government and corporate bonds)
- **Real Estate:** 5% (REITs or real estate funds)
- **Cash/Cash Equivalents:** 5% (money market funds or savings accounts)

Risk Assessment

Considering your risk tolerance, this portfolio has been designed to balance potential growth with risk management.

Review Schedule

We should review this allocation strategy quarterly to ensure it aligns with your financial objectives and market conditions.

Please feel free to reach out if you have any questions or would like to discuss this strategy in more detail.

Sincerely,
