Dear [Recipient's Name],

I hope this message finds you well. I am writing to propose a strategic capital restructuring plan that I believe could significantly enhance our company's financial stability and growth potential.

After careful analysis of our current financial standing and market conditions, I suggest the following measures:

- Consider refinancing existing debt to take advantage of lower interest rates.
- Explore options for issuing new equity to strengthen our capital base.
- Evaluate potential divestitures of non-core assets to streamline operations and improve cash flow.
- Implement a share buyback program to enhance shareholder value.

I believe these steps could not only optimize our capital structure but also align our resources with our long-term strategic goals. I would be glad to discuss this proposal further and provide additional insights based on our financial modeling.

Thank you for considering this suggestion. I look forward to your feedback.

Sincerely,
