Responsible Internet Practices for Students

Date: _____

Dear Students,

As we continue to navigate the vast world of the internet, it is imperative that we adhere to responsible practices while using online resources. The following guidelines are designed to ensure a safe and respectful online environment:

- Always respect the privacy of others and do not share personal information without consent.
- Think critically about the information you encounter; verify facts before sharing them.
- Be mindful of your digital footprint and the potential long-term impacts of your online activities.
- Engage respectfully with others in online discussions, and avoid cyberbullying in any form.
- Use secure passwords and update them regularly to protect your accounts.
- Report any suspicious or harmful online behavior to a trusted adult or authority.

By following these practices, we can create a safer online community for everyone. Thank you for your cooperation and commitment to responsible internet use.

Sincerely,
