

Corneal Transplant Evaluation Information

Dear Family Member,

We appreciate your support during the corneal transplant evaluation process. This letter aims to provide you with essential information regarding the evaluation and what to expect.

What is a Corneal Transplant?

A corneal transplant is a surgical procedure that replaces a damaged or diseased cornea with a healthy one from a donor. This procedure can help restore vision and improve the quality of life.

Evaluation Process

The evaluation consists of the following steps:

1. **Initial Consultation:** Your loved one will meet with an ophthalmologist to discuss their condition and symptoms.
2. **Comprehensive Eye Exam:** Various tests will be conducted to assess the health of the cornea and overall eye function.
3. **Medical History Review:** A detailed medical history will be taken to evaluate any risk factors.
4. **Donor Matching:** If eligible, a process to find a suitable donor will begin.

What to Expect

Throughout the evaluation, we encourage you to ask questions and share concerns. Remember, emotional and practical support is crucial during this time.

Contact Information

If you have any questions, please feel free to reach out to our team:

Phone: (123) 456-7890

Email: support@eyecareclinic.com

Thank you for being there for your loved one. We look forward to working together towards a successful outcome.

Sincerely,

The Corneal Transplant Team
