

Corneal Transplant Evaluation Procedural Instructions

Dear [Patient Name],

Thank you for considering a corneal transplant. Your evaluation is an essential step in determining your eligibility for the procedure. Please follow the instructions outlined below:

Before Your Appointment

- Ensure you have all relevant medical records and eye examinations available.
- List any medications you are currently taking along with dosages.
- Avoid wearing contact lenses for at least 48 hours prior to your evaluation.
- Arrange for transportation, as you may receive medications that could impair your ability to drive.

What to Expect During the Evaluation

Your evaluation will include a comprehensive eye examination, vision testing, and discussions about your medical history. The following tests may be performed:

- Slit-lamp examination
- Corneal topography
- Visual acuity tests
- Intraocular pressure measurement

After the Evaluation

Your eye care team will discuss the results with you and outline the next steps, which may include further testing or scheduling the transplant procedure.

If you have any questions or concerns, please do not hesitate to contact our office at [Phone Number] or [Email Address].

Best Regards,
