

# Advanced Care Directive Information Sharing

Dear [Recipient's Name],

I hope this message finds you well. I am writing to share important information regarding my advanced care directive.

Please find attached my advanced care directive, which outlines my preferences for medical care in the event that I am unable to express my wishes. It is crucial that this document is reviewed and understood by all parties involved in my care.

Additionally, I would like to discuss the following key points regarding my directives:

- Preferred medical interventions
- End-of-life care preferences
- Appointment of healthcare proxy
- Organ donation wishes

It is my wish that my values and preferences are respected, and I appreciate your attention to this matter. Please do not hesitate to reach out if you have any questions or need further clarification.

Thank you for your support.

Sincerely,

[Your Name]
