[Your Email]

[Your Phone Number]

Dear [Recipient's Name],

I hope this letter finds you well. I am writing to provide clarification regarding the recent assessment outcomes for [Child's Name] concerning Autism Spectrum Disorder (ASD).

As per the assessment conducted on [Assessment Date], it was noted that [Child's Name] displays certain behaviors and characteristics that align with the diagnostic criteria for ASD. However, I would like to elaborate on some specific areas of the assessment and discuss the implications of these results.

Key Findings:

- Social Communication: [Brief description]
- Behavioral Patterns: [Brief description]
- Strengths: [Brief description]
- Areas of Concern: [Brief description]

It is important to note that while the assessment indicates a spectrum of behaviors, it does not define [Child's Name] as solely "autistic" but rather highlights the unique profile that [he/she/they] presents. Our focus should remain on [his/her/their] strengths and areas where support can be beneficial.

We are planning to implement a tailored intervention plan that considers [Child's Name]'s individual needs, and I would appreciate any further insights or recommendations you might have regarding this.

Thank you for your understanding and support in this matter. I look forward to your response.

Sincerely,

[Your Name]
