

# Residential Waste Management Guidelines

Dear Residents,

We are committed to maintaining a clean and healthy environment in our community. To help achieve this, we have established the following guidelines for residential waste management:

## 1. Waste Separation

Please separate your waste into recyclables, compostables, and general waste. Use designated bins for each category:

- **Recyclables:** Paper, cardboard, glass, and certain plastics.
- **Compostables:** Food scraps, yard waste, and biodegradable materials.
- **General Waste:** Non-recyclable and non-compostable items.

## 2. Collection Schedule

Waste collection will occur on **every Tuesday and Friday**. Please have your bins out by 7:00 AM.

## 3. Hazardous Waste

Items such as batteries, chemicals, and electronics require special disposal. Please contact your local waste management service for guidance on proper disposal methods.

## 4. Bulk Waste

For large items (furniture, appliances), please schedule a bulk pick-up at least 48 hours in advance.

## 5. Community Involvement

We encourage all residents to participate in community clean-up days and workshops on waste reduction.

Thank you for your cooperation in keeping our community clean.

Sincerely,

**Your Community Management**
