

Snow Removal Policy Update

Dear Residents,

We hope this message finds you well. As we approach the winter season, we want to update you on our snow removal policy to ensure safe and accessible roadways for everyone.

Key Updates:

- Snow removal will commence when snow accumulation reaches 3 inches.
- The priority for snow removal will focus on main roads, emergency routes, and then residential streets.
- Sidewalks and public walkways will be cleared within 24 hours after storm cessation.

We encourage residents to park vehicles off the street during snow events to facilitate efficient snow removal operations. Thank you for your cooperation and understanding.

If you have any questions or concerns, please do not hesitate to reach out to our municipal services office.

Sincerely,

The Municipal Services Team
