

Irrigation System Care Requirement

Date: [Insert Date]

To: [Recipient's Name]

[Recipient's Address]

Dear [Recipient's Name],

We hope this letter finds you well. As part of our ongoing commitment to maintaining an efficient irrigation system, we would like to outline the necessary care requirements that must be adhered to for optimal performance.

1. **Regular Inspection:** Conduct inspections of the irrigation system bi-weekly to check for leaks, clogs, and any wear and tear on the components.
2. **Seasonal Maintenance:** Ensure that the system is flushed before and after the irrigation season to prevent sediment build-up.
3. **Filter Replacement:** Replace filters at least once a season to maintain water quality and flow rates.
4. **Adjust Timers:** Regularly adjust the irrigation timers to ensure plants receive adequate water based on seasonal changes.
5. **Monitor Soil Moisture:** Utilize moisture sensors to avoid overwatering and ensure the health of the plants.

Your cooperation in carrying out these care requirements is essential for the longevity and efficiency of the irrigation system.

Thank you for your attention to this matter. Should you have any questions or need further assistance, please do not hesitate to contact us.

Sincerely,

[Your Name]

[Your Position]
