

Quick Reference for QR Code Scanning at the Conference

Dear Conference Attendees,

Welcome to the Annual Conference! To enhance your experience, please find below a quick reference guide for scanning QR codes during the event.

Steps to Scan QR Codes:

1. Ensure your mobile device has a camera and is connected to the internet.
2. Open your camera app or a QR code scanning app.
3. Point your camera at the QR code. Make sure it is centered and well-lit.
4. Wait for the link or information to pop up on your screen.
5. Tap the notification to access the content.

Tips:

- For best results, hold your device steady.
- Use a dedicated QR code scanner if your camera does not recognize the code.
- If you encounter any issues, please visit the Help Desk located at the main entrance.

Thank you for being a part of the conference! We hope you enjoy the activities and make the most of the digital interactions.

Best regards,
Conference Organizing Team
