Dear [Association Contact Name],

I am writing to formally request the protection of trade secrets within our industry. As you know, safeguarding proprietary information is vital to maintaining competitive advantage and fostering innovation.

In light of recent developments, we believe that a clear directive from our industry association regarding trade secret protection is essential. This will not only bolster the trust among our members but also fortify our collective impact in the market.

We propose the establishment of a framework that includes guidelines for the protection of sensitive information, methods for reporting breaches, and establishing penalties for misconduct.

Thank you for considering this significant matter. We look forward to your prompt attention to this request and are eager to discuss this further.

Best regards,

[Your Name]
