## **Subject: Suggestions for Our Prenuptial Agreement**

Dear [Partner's Name],

As we prepare for our upcoming marriage, I believe it is important to establish a clear understanding of our expectations and desires concerning our relationship. With that in mind, I wanted to propose some suggestions for our prenuptial agreement. I hope this will guide us in having open discussions and ensuring clarity moving forward.

### **1. Financial Responsibilities**

Outline how we will manage expenses, savings, and investment decisions. It may be beneficial to specify each partner's contributions.

### **2. Property Ownership**

Clarify any pre-marital assets and how we will handle property acquired during the marriage.

### **3. Income and Earnings**

Determine how income will be shared, and whether separate or joint accounts will be maintained.

### **4. Debt Management**

Discuss how we will handle any existing or future debts, including student loans and credit card debt.

### **5. Support and Maintenance**

Consider specifying terms related to spousal support in the event of separation or divorce.

### **6. Dispute Resolution**

Agree on a process for resolving conflicts that may arise, whether through mediation or another method.

I believe these topics are fundamental in fostering a strong foundation for our relationship. I look forward to discussing these suggestions with you and ensuring that we both feel secure and supported as we embark on this journey together.

With love,

[Your Name]
