Subject: Retirement Plan Risk Assessment

Dear [Recipient Name],

I hope this letter finds you well. As part of our ongoing commitment to ensuring that our retirement plans are robust and align with our overall financial strategy, we have conducted a risk assessment of the current retirement plan portfolio.

The objectives of this assessment were to identify potential risks and to evaluate the adequacy of our plan in meeting future retirement obligations. We have examined various factors including market volatility, interest rate fluctuations, and demographic changes that could impact our retirement resources.

The key findings from our assessment are as follows:

- Investment diversification levels are satisfactory but may benefit from increased exposure to emerging markets.
- Future liabilities suggest a need to consider increasing contributions to maintain funding levels.
- Potential impacts of regulatory changes could create further risks that we need to monitor closely.

Based on these findings, we recommend the following actions:

1. Review and adjust asset allocations to enhance growth potential.
2. Increase employee education on retirement savings options.
3. Regularly schedule reviews of plan performance and compliance with updated regulations.

We look forward to discussing these findings and recommendations in further detail. Please feel free to reach out to me with any questions or if you would like to schedule a meeting.

Thank you for your attention to this important matter.

Sincerely,

[Your Name]
